Articles

Advances in studies on rubber abrasion
S.W. Zhang 143

Analysis of a two-axial-groove journal bearing including thermoelastohydrodynamic effects
R. Sinhasan and H.N. Chandrawat 347

The BAM Tribology Index database: a key to the tribological literature
H. Tischer 121

Biocorrosion in transformer oils
R. Wasserbauer 39

Boundary lubrication: adsorption of oil additives on steel and ceramic surfaces and its influence on friction and wear
P. Studt 111

Cavitation erosion of grey cast irons containing 0.2 and 1.0% phosphorus in corrosive waters
W.J. Tomlinson and M.G. Talks 195

Centrifugal effects in externally pressurized bearing under turbulent flow conditions
M.F. Khalil and A.S. Ismail 265

A comparative evaluation of RPD and ferrographic diagnostic methods for turbine engine lubricant samples
R.L. Wright 11

Compressibility and inertia effects on the dynamic behaviour of recessed hydrostatic bearings
E. Pollmann and M. Vermeulen 166

Corrosive wear in crosshead diesel engines
A.K. van Helden, M.C. Valentijn and H.M.J. van Doorn 189

Design and test of a solid material damper for a motor bearing system
J.-Q. Ren and Y.-B. Xie 315

The design of high efficiency flat pad aerostatic bearings using laminar restrictions
M. Tawfik and K.J. Stout 273

Dry sliding wear of sintered 6061 aluminium alloy–graphite particle composites
A.K. Jha, S.V. Prasad and G.S. Upadhyaya 321

Effect of nonylpolysulphide in different base oils on abrasive belt grinding of stainless steel
M. Nakayama, K. Kudo, T. Hirose and M. Iino 389

Effect of phosphide and matrix microstructures on the dry sliding wear of grey cast iron
W.J. Tomlinson and G. Dennison 259

Elastohydrodynamic lubrication of line contacts with a non-Newtonian lubricants
J.-F. Lin, T.-R. Lin and J.-Y. Jang 335

Elastothermohydrodynamic effects in elliptical bearings
D.V. Singh, R. Sinhasan and K. Prabhakaran Nair 43

Examination of wear debris produced using a four-ball machine
J.A. Leng and J.E. Davies 137

Experiments on the destabilizing factors in tilting pad bearings
Y. Lie, X. You-Bai, Z. Jun and Q. Damou 329

Fretting fatigue and fretting wear
Y. Berthier, L. Vincent and M. Godet 235

Fretting wear of ceramics
D. Klaffke 89

High temperature tribology of ceramics
M. Woydt and K.-H. Habig 75

The influence of reciprocating sliding wear on the oxidation behaviour of Fe-12Cr steel
A.F. Smith 243

Influence of sterntube bearings on lateral vibration amplitudes in marine propeller shafting
R.W. Jakeman 125

Investigation into the effects of bearing misalignment on the lubrication of gear end faces: experimental approach
K. Koç 395

Laboratory studies on the wear of grinding media
K. Udaya Kumar, Pradeep Gundappa, B.N. Pramila Bai, K.A. Natarajan and S.K. Biswas 219

Non-linear oil film response model for the dynamically misaligned sterntube bearing
R.W. Jakeman 3

Oil/water partition for some hydroxyalkylamines and antimicrobial efficacy in metalworking coolants
K. Golec, E.C. Hill, P. Kazemi and R.O. Skold 375

Operational capability of heat transport pumps under two-phase flow conditions
A.N. Kumar and P.R. Burchett 205

Performance characteristics of an externally pressurized capillary-compensated flexible journal bearing
R. Sinhasan, S.C. Sharma and S.C. Jain 283

Physico-chemical studies on potential lubricants: phthalocyanines
U.S. Tewari and S.K. Sharma 253

Ploughing of soft asperities by a hemispherical slider
S.M.H. Benabdallah and J.-P. Chalifoux 383

Pneumatic stability of the integral aerostatic bearing comparison with other types of bearing
R. Bassani, E. Ciulli and P. Forte 363

Sliding wear performance of different polyimide formulations
K. Friedrich 25

Squeeze phenomenon of lubricant between rough rectangular surfaces
E. Marui, S. Kato, T. Matsubayashi and A. Kobayashi 306

Static behaviour of an integral externally pressurized gas bearing – comparison with other types of bearing
R. Bassani, E. Ciulli and P. Forte 177

Studies on the ageing characteristics of automotive crankcase oils
G.C. Ofunne, A.U. Maduako and C.M. Ojinnaka 401

The survival of *Legionella pneumophila* in dilute metalworking fluids
R. Elsmore 213

A torque-controllable electromagnetic multiple disc brake
K. Nagaya, M. Nakata, Y. Masuo and S. Ikai 17

Tribology at BAM: a survey
H. Czichos and K.-H. Habig 62

Tribology of polymers
E. Santner and H. Czichos 103

Ultrasonic measurement of wear
A.S. Birring and H. Kwun 33

Use of a mixture of alcoholamines to potentiate the antimicrobial activities of certain cutting fluid preservatives
D. Oppong and E.O. Bennett 343

Wear behaviour of surface coatings on steels
K.-H. Habig 65
